Membership Guidelines

This document outlines the Major League Hacking (MLH) Membership Guidelines. MLH provides all MLH Member Events with the following benefits and resources to ease the lives of organizers and improve the hacker experience.

Base Package

As an MLH Member Event all hackathons receive the following benefits.

I.   **Listed on Season Page.** Events will be listed on their region's official hackathon season page.

II. **Onsite Support.** MLHers are extensions of MLH Member Event organizing teams. They're able to help coordinate judging, mentor hackers, set up food, or even take out the trash. Whatever a hackathon needs to ensure that an event runs smoothly MLH will be available to provide assistance.

III. **Access to official office hours.** Our team help support 150 student hackathons every year. We've helped deal with all sorts of problems and questions. With MLH Office Hours, you can tap into the MLH team's expert advice and mentorship when you need it in a 1-on-1 environment.

IV. **Access to Q&A sessions and League Stand-Ups.** We schedule monthly group Stand-Ups where organizers can come together to share what they have learned with each other and with the MLH team. We also hold sessions with community experts from outside of MLH. These people can share best practices on community building, sponsorship, and more from beyond the hackathon organizer community.
